TRANSMITTAL LETTER AND
REQUEST FOR CORRECTED THE TITLE IN THE USPTO DATABASE
AND THE OFFICIAL FILING RECEIPT

Sir:

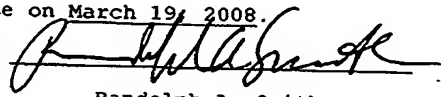

Further to our telephone conference with the PCT Legal Office on March 12, 2008, the USPTO has not amended the title for this application according to the Preliminary Amendment filed on February 1, 2005. Applicants respectfully request the U.S. Patent and Trademark Office to amend the title in this application.

CERTIFICATE OF TRANSMISSION (37 CFR 1.8a)

I hereby certify that this correspondence including the pages listed above are being facsimile transmitted to the United States Patent and Trademark Office on March 19, 2008.

TRANSMITTAL LETTER AND REQUEST FOR CORRECTED THE TITLE IN THE
USPTO DATABASE AND THE OFFICIAL FILING RECEIPT
Application No.: 10/522,887
Page 2

Enclosed please find copies of:

- 1) USPTO Stamped Receipt dated February 1, 2005 1 Page
- 2) Preliminary Amendment filed on February 1, 2005 2 Pages
- 3) a copy of the USPTO Database Biographic Data 1 Page
dated March 18, 2008
- 4) a copy of Official Filing Receipt 2 Pages

Applicants filed a Preliminary Amendment on February 1, 2005, to change the title. The title was not amended in the USPTO database and also in the Official Filing Receipt.

Applicants respectfully request the USPTO to correct the USPTO database and the Official Filing Receipt showing the correct title as follows: SEMICONDUCTOR LIGHT-EMITTING DEVICE, METHOD FOR MANUFACTURING THE SAME, AND LIGHT-EMITTING APPARATUS INCLUDING THE SAME. The proposed change is circled on the attached sheet.

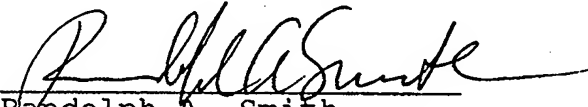

It is respectfully requested that the U.S. Patent and Trademark Office correct the title for this application and forward the Corrected Official Filing Receipt in due course.

FILING RECEIPT

OC000000019544867

Date Mailed: 07/12/2006

Receipt is acknowledged of this regular Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please mail to the Commissioner for Patents P.O. Box 1450 Alexandria Va 22313-1450. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process simplifies the filing of patent applications on the same invention in member countries, but **does not** result in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at <http://www.uspto.gov/web/offices/pac/doc/general/index.html>.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, <http://www.stopfakes.gov>. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4158).

LICENSE FOR FOREIGN FILING UNDER Title 35, United States Code, Section 184 Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof
